QINDAO HUADING IMP.&EXP.CO.,LTD.は、中国の蘇州にあるプラスチック製品のサプライヤーです。当社は2006年に設立。工場は1980年代に設立されました。最高品質の製品を提供するだけでなく、専門的な物流および保管ソリューションも提供します。

工場について：

- ・ 工場生産拠点面積：90,000㎡
- ・ ブロー成形機18台（製品容積1～1000リットル）
- ・ 既存射出成形機28台（射出量0.05kg～45KG）
- ・ その他アクセサリ用成形機 20セット

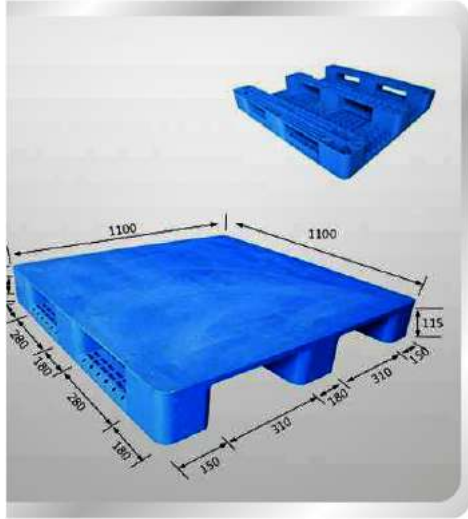

認証について：

ISO9001:2008認証取得、ISO14001認証取得、ISO/TS16949認証取得

販売先について：

アメリカ、カナダ、オーストラリア、イギリス、インド、フィンランド、チリ、ブラジルなど数十カ国

LOADING HD3RCWS1111

Art No.	HD3RCWS1111 , 3 Runners
Description	
Size	L1100*W1100*H150mm
Entry Type	4 Way
Style	Single and closed deck
Material	HDPE / PP
Colour	Blue,Black,Grey and other colour requested
Antislip	Yes,anti-slip rubber inserted
Available for racking	Yes, with 8 steel tubes
Labeling options	Logos and numbering on request, depending on volume
Load capacity	
Dynamic Load 	1.5T
Static Load 	6 T
In racking system 	1 T

EntryType フォークの差し込み方向
 Style 表面に穴が無い→close
 穴がある→open
 Material HDPE/PP※

Antislip 底面にゴムの滑り止めが一般的

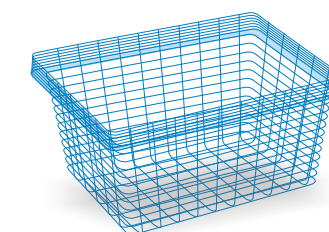

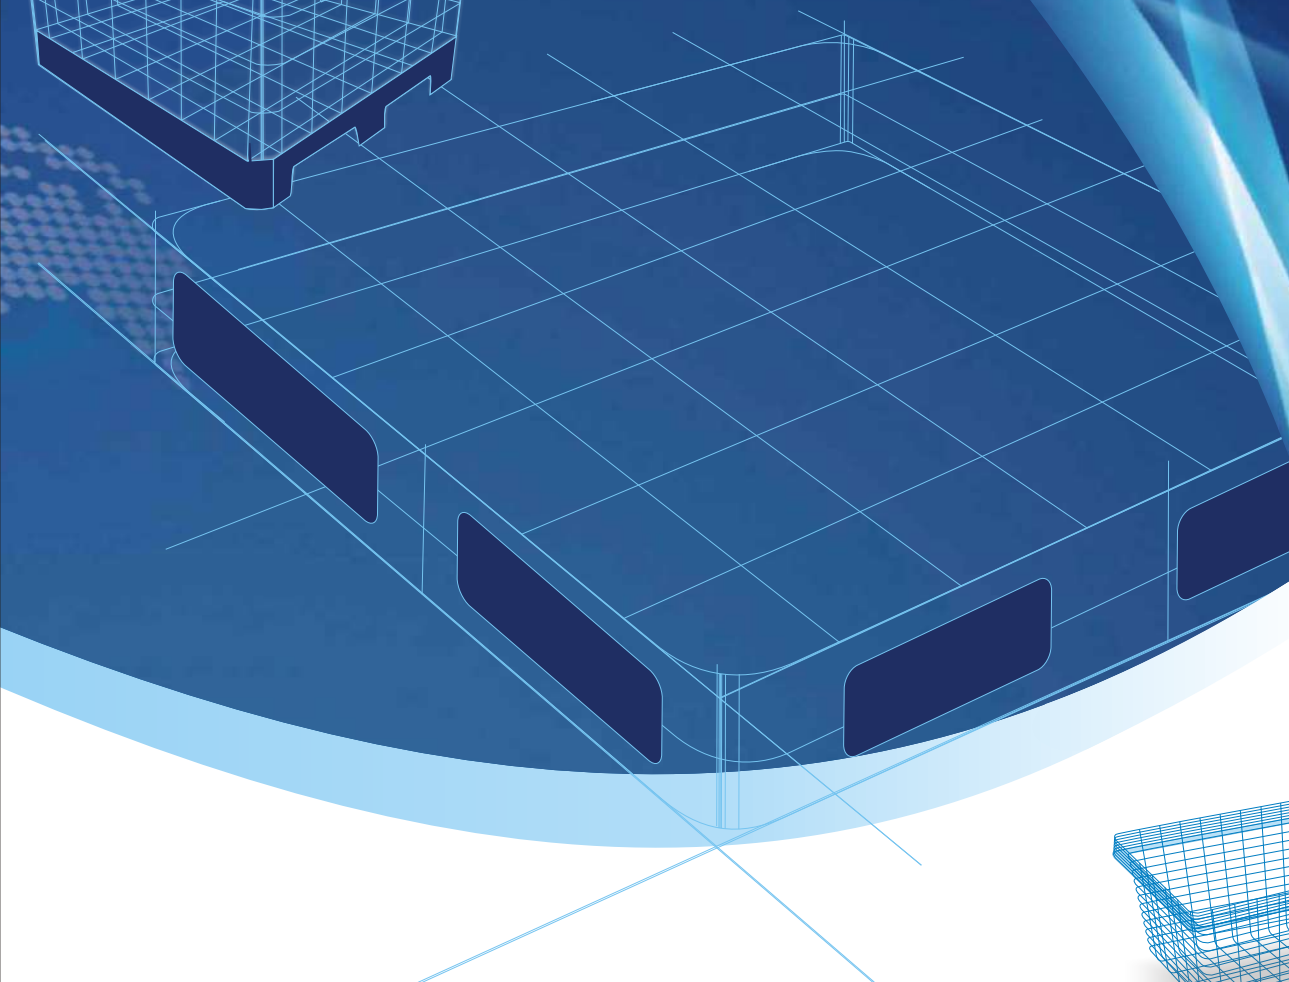

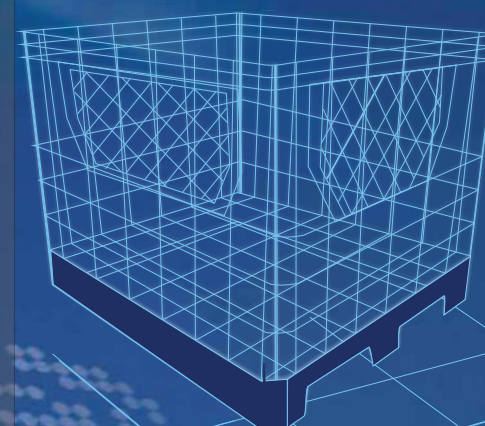

DynamicLoad → 動荷重
 StaticLoad → 静荷重

Material※
 PP（ポリプロピレン）：
 安価で軽く、成形加工が容易でリサイクル性が高い。

HDPE（高密度ポリエチレン）：
 PEに比べて剛性は劣るが低温環境下での耐衝撃性に優れる。
 冷凍倉庫などで使用される。

COMPANY PROFILE

Qingdao Huading Imp. & Exp. Co., Ltd. is a leading plastic products supplier from China.

PRODUCT LINE

Plastic pallet; Collapsible pallet containers; Bulk containers; IBC's; Outdoor bins; Plastic tables and chairs; Storage and turnover boxes; crates and baskets and series of products and so on.

ADVANTAGE

- Factory manufacturing base covers area 10,5000m².
- 28 sets of existing injection molding machines (injection quantity 18 sets of blow molding machine (products volume from 1 up to 1000 liters) 20 sets of other auxiliary equipments.
- Special QC team and independent testing labs.
- Passed ISO9001:2008 quality management system certification, ISO14001 environmental management system certification. & ISO/TS16949 quality authentication.
- Quick response on customers' request.
- On-time shipping and order tracking.

SHORT GUIDE TO PLASTIC PALLET

WHY PLASTIC PALLET ?

- LIGHTER IN UNIT WEIGHT
- SAFE HANDLING
- RESISTANCE TO CORROSION
- WATERPROOF
- HEAT RESISTANCE
- COLD RESISTANCE
- OIL RESISTANCE
- FIRE RETARDANCY
- CLEAN AND HYGIENIC, EASILY SANITIZED
- WORKING LIFE SPAN IS AROUND 10 TIMES OF WOODEN PALLET

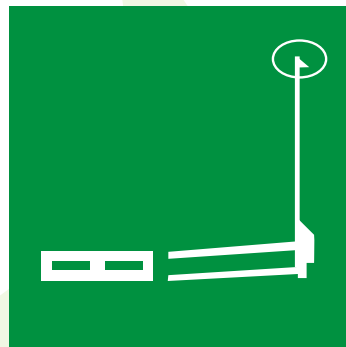

Product Features

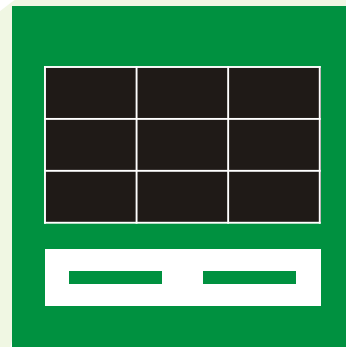

PROPER OPERATION

Normal Temperature

Proper Operation

Uniform Force

IMPROPER OPERATION

Exposure

Maloperation

Uneven Force

SHORT GUIDE TO PLASTIC PALLET

HOW TO CHOOSE ?

HERE ARE THE TOPICS WE COVER:

USER APPLICATION – This is the single most important consideration when selecting a pallet. It's the first question we ask our customers, so it'll be the first topic we cover in our tutorial.

PALLET MATERIALS – Generally HDPE and PP. Here we'll break down the differences between virgin materials and recycled materials. The distinction is crucial, and the biggest differences are service time and flexibility.

PALLET DESIGN – While this isn't the end-all be-all factor to consider when buying plastic pallets, it's still an important part of the process. We'll go through the design considerations to make before you purchase.

MANUFACTURING PROCESSES – Unlike wood pallets, there are many processes available to make plastic pallets. All have their costs and benefits, and we'll be happy to explain them.

You need to know how much weight you are putting on a pallet and how it will be used and handled to select the proper type of pallet for your application. When looking at what you are putting on the pallet, capacities are based on evenly distributed loads. If you are putting coils or bags of product, the weight is not evenly distributed. The following should help a bit in explaining the different plastic pallet designs available.

RACKABLE – These are the strongest plastic pallets available. They are built to withstand their weight capacities on an open rack system that does not have decking. In other words, the rack has just a front and back beam with nothing between. Options vary from light duty to heavy duty. Steel, composite and galvanized reinforcement bars are available in some models. If your racks have decking you can use a stackable pallet.

STACKABLE – These pallets are designed with a bottom deck that allows you to stack pallets on top of other loaded pallets without damaging the load. Stackable pallets have a variety of bottoms. The picture frame bottom is a full perimeter frame with the middle clear. The cruciform base has the full perimeter frame with a cross through the middle. The three rail pallet has three rails in one direction. Post and rail have two rails with three posts through the middle. When we mention rails we are speaking of what touches the floor.

NESTABLE – These are a very popular distribution pallet due to their space saving advantage. The legs of these pallets nest inside each other to maximize your floor space when not in use. These pallets are suited for distribution systems, warehouse w. i. p. pallets, storage, raising floor levels, or any general applications.

EXPORT PALLET – Available in both Stackable and Nestable versions. Inexpensive plastic pallets designed for one-way shipments or general light warehouse and storage use. They vary greatly in weight capacities and life expectancy.

DRUM PALLETS – These plastic pallets are specifically designed to handle four fifty-gallon drums.

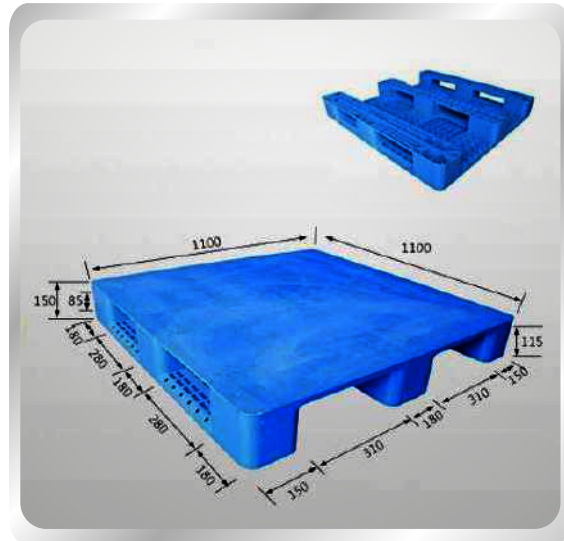

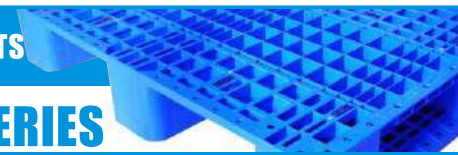

Drum pallets are available in a variety of qualities from export to spill containment.

SOLID DECK PALLETS – They are just that, the deck or top of the pallet is solid plastic. These are available in a variety of configurations. Options also include reinforcement bars to handle the heavy loads, anti skid surfaces, and perimeter lips to keep your load in place.

Plastic pallets -with internal steel tubes (arrow) effectively solve the problem of high cost and larger load, with larger unit weight.what's more,they can meet the strict requirement of the deflection less than 10mm on racks,while less distortion and reducing cost. (For pallets with internal steel tubes only.)

Art No.	HDFGNS1210C, Full perimeter
Description	
Size	L1200*W1000*H125mm
Entry Type	4 Way
Style	Single and open decks
Material	HDPE / PP
Colour	Blue,Black,Grey and other colour requested
Antislip	Yes,anti-slip rubber inserted
Available for racking	No
Labeling options	Logos and numbering on request, depending on volume
Load capacity	
Dynamic Load	0.5T
Static Load	1.5T
In racking system	/

BLOW MOULDING PALLET

HUA DING / **HDBM1210**

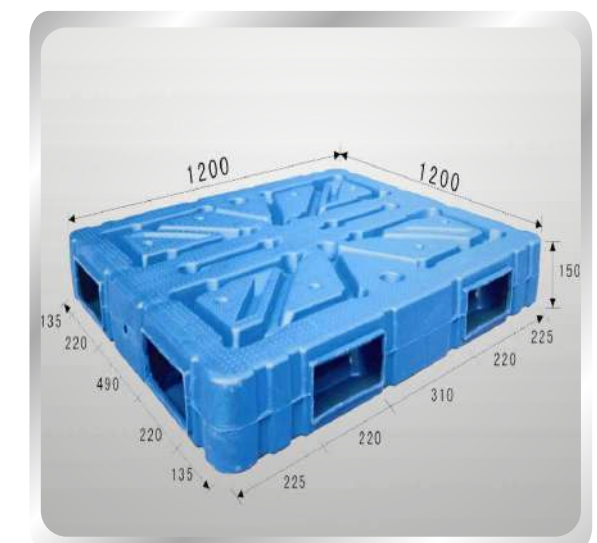

Art No.	HDBM1210, blow moulding pallet
Description	
Size	L1200*W1000*H150mm
Entry Type	4 Way
Style	blow moulding pallet
Material	HDPE
Colour	Blue,Black,Grey and other colour requested
Antislip	Yes
Available for racking	Yes
Labeling options	Logos and numbering on request, depending on volume
Load capacity	
Dynamic Load	2T
Static Load	6T
In racking system	1.5 T

HUA DING / **HD9FGAN1210A**

Art No.	HD9FGAN1210A, 9 feet
Description	
Size	L1200*W1000*H140mm
Entry Type	4 Way
Style	single and open deck
Material	HDPE / PP
Colour	Blue,Black,Grey and other colour requested
Antislip	Yes,anti-slip rubber inserted
Available for racking	No
Labeling options	Logos and numbering on request, depending on volume
Load capacity	
Dynamic Load	0.5T
Static Load	1T
In racking system	/

Art No.	HDBM1212, blow moulding pallet
Description	
Size	L1200*W1200*H150mm
Entry Type	4 Way
Style	blow moulding pallet
Material	HDPE
Colour	Blue,Black,Grey and other colour requested
Antislip	Yes
Available for racking	Yes
Labeling options	Logos and numbering on request, depending on volume
Load capacity	
Dynamic Load	2T
Static Load	8T
In racking system	1T

PLASTIC PALLET LIGHT DUTY SERIES

Art No.	HDBM1614, blow moulding pallet
Description	
Size	L1600*W1400*H150mm
Entry Type	2 Way
Style	blow moulding pallet
Material	HDPE
Colour	Blue,Black,Grey and other colour requested
Antislip	Yes
Available for racking	Yes
Labeling options	Logos and numbering on request, depending on volume
Load capacity	
Dynamic Load	2T
Static Load	6T
In racking system	1.5 T

HUA DING HDBM1614

Bearing Stiffener
Enhance bending force & anti-pressure ability
Ensure pallet flat and non-deformation under pressure

Antislip
The circular bulge non-slip design on the surface can effectively prevent goods dropping

Prevent Standing Water
Recess holes discharge water

Heavy Edge Reinforcement

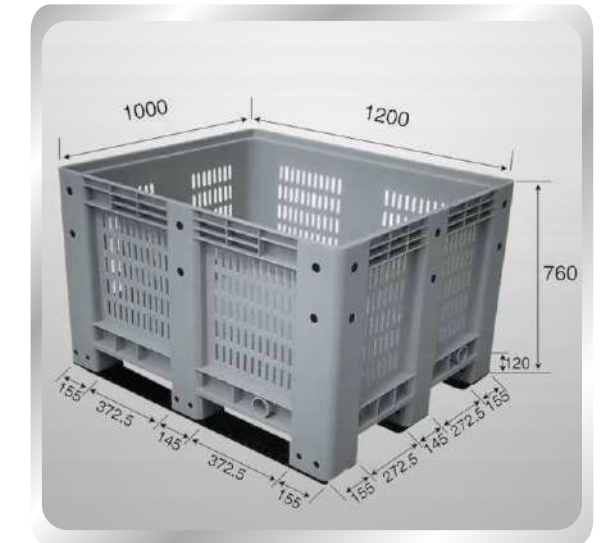

CHINA'S LEADING SUPPLIER OF PLASTIC PRODUCTS

IBC's

1. PRODUCT NAME

HD1000L IBC's, are widely applicable for packaging and transporting all kinds of liquids, dope and powder, and have been offered UN certificate.

Technical data:

Nominal Capacity	1000L
Brimful Capacity	1050L
Length	1200mm
Width	1000mm
Height with pallet	1150mm
Dia. Of Filling opening	140mm
Dia. Of Discharge opening	50mm
Height of Fork opening	100mm
Lable plate	1-2 pcs
Corner Protector	4 pcs
Weight of Inner container	18±1KG
Total approx	60kg±2kg

2. Product Introduction

- ① Made of HDPE, the inner barrel of the IBC is of high intensity, easy to clean and innocuous.
- ② Made of first-class hot-dip galvanized steel pipes, the frame of the container is firm, durable and corrosion-resisting.
- ③ Made of engineering plastics, the angle bead and cover plate can well protect the inner barrel and the valve.
- ④ Made of quality galvanized steel plates, the four-way-inlet pallet well protects the inner, and is of best stability, easy to load, unload and stack.
- ⑤ Equipped with exhaust devices, the container cap ensures liquid safety during transportation.
- ⑥ Fixed by bolts into the container top, so the inner barrel can be easily replaced.

CHINA'S LEADING SUPPLIER OF PLASTIC PRODUCTS

IBC's

3. PRODUCT STRUCTURE

1: Inner Barrel

Rectangular blow moulded barrel made of HDPE, with filling opening in the middle of the top section and discharge opening at the bottom of the front side.

Material HDPE, natural color
Weight: 18±1kg
Wall thickness control: 100 points

2: Steel Frame

Rectangular grid frame made of circular steel pipes, connected bottom pallet with tie-bar on the top (assembled with brackets). There are one instruction plate on the front and one label plate on the side.

Material galvanized steel
Thickness of steel pipe: 1mm
Weight: 42kg±1kg

3: Pallet

Steel-frame pallet: 1200×1000mm, 4-way entry
Material: galvanized steel

4: Filling Opening

DN140 with external thread, sealed with thread caps.

5: Corner Protector

4 pieces made of HDPE

6: Material of Ball Valve HDPE

Material of Valve Sealing Ring EPDM, FPM, NBR

7: Discharge Opening

Dn50 ball valve is with blue, red, green or yellow handles and safety screw. Valve outlet is equipped with dust-proof inner and outer caps, including liquid guide pipe.
